Consent for E-mail Correspondence

Union Square Medical Associates offers to correspond directly with patients via e-mail. The HIPAA Privacy Rule allows a covered health care provider to communicate electronically through e-mail with patients, provided that the provider applies reasonable safeguards when doing so. See HIPAA 45 C.F.R. § 164.530(c).

Although our email system is not encrypted, the HIPAA Privacy Rule allows unencrypted e-mail as a form of direct patient communication. If the use of unencrypted e-mail is unacceptable to you when you request confidential information, more secure methods of communication such as mail, fax or telephone will be offered to you. Appointment and blood work reminders are automatically sent to you unless otherwise stated. Our office is in compliance with the HIPAA Security Rule requirements in 45 C.F.R. Part 164(c).

By signing this document, you allow Union Square Medical Associates to communicate via non-encrypted e-mail. It is your right to revoke this notice at any time by providing our office with a signed written letter stating your wish to terminate future e-mail communication.
